HITACHI
Inspire the Next

What matters gets measured...what's measured, gets done! Hitachi Data Systems Certification, your road to achievement!

Certification News and Updates - August 2010

In this Issue:

- New Course! Architecting Storage Performance with Hitachi Storage (Course TSI1945)
- See what Hitachi Data Systems partners are saying about the certification program!

New Course! Architecting Storage Performance with Hitachi Storage (Course TSI1945)

Research has shown over and over again that customers want to maximize their enterprise environments by improving performance. This new course will help satisfy this need. We have leveraged Hitachi field professionals who are experts in the area of performance to build both this course and the accompanying certification exam.

This four-day instructor-led course covers performance concepts and tools, design principles, storage-related equipment and applications, I/O concepts, storage configurations, assessment, planning, and design of storage solutions. This course includes case studies which will allow learners to diagnose performance issues and provide viable solutions.

October 25-28, 2010: Hanover, Maryland
January 17-20, 2011: Santa Clara, California
May 16-19, 2011: Hanover, Maryland

See what Hitachi Data Systems partners and customers are saying about the certification program!

My reasons for participation in the Hitachi Data Systems Certification program are to keep current in the suitability, deployment and use of HDS solutions in optimally meeting customer requirements. The certifications provide added value to Revera customers and position Revera as a trusted storage advisor. They are also a great way to bring credibility to my skill level and complement my expertise and knowledge about HDS storage technology. The certifications have also resulted in increased business opportunities and successful deal closures for Revera and enable

me to effectively articulate HDS value propositions to all levels of our customer IT organizational structures.

Russell Peat

Revera Limited

Hitachi Data Systems Certified Professional and Hitachi Data Systems Certified Architect
