HITACHI
Inspire the Next

What matters gets measured...what's measured, gets done! Hitachi Data Systems Certification, your road to achievement!

Certification News and Updates - October 2010

In this Issue:

- New Course! Hitachi Storage Management Solutions - (Course TSI1990)
- New Course! Architecting Storage Performance with Hitachi Storage (Course TSI1945)
- See what Hitachi Data Systems partners are saying about the certification program!

New Course! Hitachi Storage Management Solutions - TSI1990 (ILT)

This five day instructor-led course provides instruction on how to use Hitachi Device Manager software v7.x to manage provisioning in Hitachi Enterprise storage environments. It familiarizes the learner with key provisioning tasks including host provisioning, external storage management, and dynamic provisioning. The course also introduces the learner to Hitachi Dynamic Link Manager Advanced for performing path management operations.

January 17-21: Dallas, TX
January 31- Feb 4: Toronto, ON
February 21-25: Itasca, IL
March 14-18: Atlanta, GA

New Course! Architecting Storage Performance with Hitachi Storage (Course TSI1945)

Research has shown over and over again that customers want to maximize their enterprise environments by improving performance. This new course will help satisfy this need. We have leveraged Hitachi field professionals who are experts in the area of performance to build both this course and the accompanying certification exam.

This four-day instructor-led course is designed for all storage professionals, HDS customers, partners and employees who seek to increase their ability to configure and tune Hitachi storage systems for optimum performance.

The course covers performance concepts and tools, design principles, storage-related equipment and applications, I/O concepts, storage configurations, assessment, planning, and design of storage solutions.
