See what Hitachi Data Systems partners and customers are saying about the certification program!

I'm convinced that the most important benefit of certification is that the process of certification increases my skills and my knowledge to a great extent. Nowadays engineer without really knowledge can't be called as an engineer, Furthermore the true value of certification is in its ability to verify that a person possesses skills that are important to an employer. In this fact the pure role of certification is to provide measures that are valid and fair.

Jaroslaw Duda

Hitachi Data Systems Certified Professional , Hitachi Data Systems Certified Implementer, Hitachi Data Systems

Storage Manager and Hitachi Data Systems Certified Integration Professional Senior Field Application Engineer, DNS Polska Sp. z o.o.

I have pursued my HCP, HCA and HCI to further the scope of Professional Services which Agilysys can offer. Earning your HCP, HCA or HCI demonstrates a strong commitment to a higher level of Professional Services delivery and customer satisfaction which is extremely valuable when interacting with prospective and existing customers.

Marc Winans

Hitachi Data Systems Certified Professional , Hitachi Data Systems Certified Implementer , Hitachi Data Systems Certified Implementation Specialist, Hitachi Data Systems

*Certified Architect and Hitachi Data Systems Certified Architect - Expert
Principal Enterprise Storage Architect, Agilysys*
