VSP G1000 is from Hitachi Data Systems, THE MARKET LEADER IN STORAGE VIRTUALIZATION.

VSP G1000, where CLOUD COMPUTING meets SOFTWARE-DEFINED STORAGE, and GLOBAL VIRTUALIZATION meets SIMPLICITY.

OTHERS PRETEND TO SOLVE YOUR PROBLEMS but only MASK them. They DON’T ELIMINATE them. VSP G1000 REALLY DOES THE JOB with integrated management and enterprise-wide scalability.

SIMPLE, EASY AND HAPPY

ONE LOOK AT THESE SPECS AND YOU’LL HAVE NO DOUBT

Features that will make YOUR LIFE SIMPLE AGAIN

1. Zero downtime: the only Continuous Cloud Infrastructure for the always-on enterprise.
2. 3.3 million IOPS, 896GB/sec aggregate bandwidth.
3. Automation with policy-driven self-management.
4. Nondisruptive migration.
5. The best active-active match for Oracle RAC and VMware Metro Storage Cluster.

Thank goodness for HITACHI VIRTUAL STORAGE PLATFORM G1000

#1

Your ALWAYS-ON WORLD

Operating expenses are OUT OF CONTROL.
Technology is getting TOO COMPLEX.
Devices are GROWING RAPIDLY.
Data protection is TAKING OVER.
Your options are limited by SMALL DATA SOLUTIONS.
Your base built on point solutions and appliances creates DATA SILOS.

Life is getting too complex.
Devices are growing rapidly.
Your options are limited by small data solutions.
Your base built on point solutions and appliances creates data silos.

Operating expenses are out of control.

But the world gets in the way.
