Get the Most Flexibility and Value for Your Training

Hitachi Training Units

By purchasing Hitachi Training Units you can:

- Make it easier for your employees to update important IT skills.
- Maximise learning opportunities for your employees.
- Simplify and protect your training budget with a single fixed-price purchase.
- Purchase training packages in advance to avoid surprise expenditures.
- Take advantage of flexible, convenient scheduling.
- Benefit from generous discounts on regularly priced training expenditures.

A single training unit is typically equivalent to a person attending a 1-day, publicly scheduled, instructor-led training course. Training units can also be exchanged for any Hitachi Data Systems Academy training products and services.

It is simple. You select the number of training units that best suit your training requirements, budget allowance and time scales, and either add them into your total Hitachi Data Systems solution package, or purchase them separately.

Terms

Each training unit is valid for 1 year from the date of purchase. The minimum purchase is 10 training units; purchases may be made in any quantity above the minimum.

All Hitachi Data Systems Academy training products and services are priced in training units as well as local currency, thus making it easy for you to “spend” your training units once purchased.

What's Next?

Contact your local Hitachi Data Systems Academy team or your Hitachi Data Systems account team members. All team members are more than happy to assist you in deciding how many training units to purchase and which training opportunities will best meet your objectives.
